Our History

Egysteel was founded in 2004 in Abu-Rawash with a total area of 2000 square meter , Having experienced tremendous growth through the years, Egysteel moved to Cpc industrial zone , October in 2014 with a total area of 10000 square meter.

Since that time, we've ambitiously expanded our enterprise, adding square footage and capabilities each step of the way. We've invested in technologically advanced equipment and metal fabrication tools and perfected our process, serving almost every major industry there is.
